What's New in the Karteset?

Karteset is a free database program that allows you to store any kind of information, suitable for businesses or home use. With Karteset's unlimited cards and categories, information management has never been so easy and intuitive. Karteset's intuitive GUI is easy-to-learn, yet very powerful. You can sort all your cards, search cards and categories, and export them in any kind of format you want. Karteset is a simple program, yet very powerful. What Karteset Features You'll Find: - Easy to learn but powerful user interface - more than

20 icons with a "click-and-drag" functionality - Unlimited cards and categories, with unlimited different text and picture cards - On-card Notes - notes for each card to keep track of what you're doing - Rolodex-like Card View - sort the cards by a field and view them in Rolodex-style - Full text search - search one card by keyword - Internet Clipboards - Import web URLs, pictures, and webpages - Exports to many formats -.TXT, HTML, DEVX, DEVX5, MS Word, Outlook and much more! - Export to many formats - POD, HTML, DEVX, DEVX5, MS Word, Outlook and much more! - How it Works: When you start Karteset for the first time, you're asked to create your username. After you have created an account, you'll have to choose a name for your new cardfile. You can create a new text card, or just import an existing format file (HTML, DEVX, DEVX5, MS Word, POD, TXT, etc.). You can then begin adding cards, removing them, or re-arrange them. To get started, press the file-list icon on the top right of the screen. You'll be able to sort the files by "Name," "Date," "Author," "Type," or "Label." To create a new card, just click on the green plus icon in the upper right corner of the file-list screen, then click on the "+" icon in the file-list. To edit a card, click on the icon, then click on the X in the upper right corner. A list of card edit options will appear. If you want to remove a card, just press the "X" icon in the upper right
