Snap On Ethos update link also found on their website, this is broken, the link provided now leads to an error page. New snapshot, #2002 June 2017 Installing the snap on ethos software. First time I have ever created a stub post. There are a lot of modifications from the default computer graphics program, and snap on ethos is still semi stable. It's buggy, but do-able. Also, it's possible to use the spectroscope to measure the concentration of different metals in any sample. Part #1: Open snap on ethos. Show me how to do that. If you have any idea how to install this software. Please help me. Part 2: In the taskbar, right click on the snap on ethos icon and choose properties. There, you must go through the classic setup. If you find any bugs or problems, please let me know. I have another question, how do I know if the cracker.sn1 or the crack group has the crack for me? I see many distributors. I want your opinion on this. I got a fairly stable version of snap on ethos along with crack. I used this to find out the metal content of my garage. It turned out to be an aliquot of my garage. Which is not a good idea, in fact, it showed where the water line is in my garage, and where the ground line is. Which I already knew. It was accurate to within 1 ppm on almost every metal in my garage. My gasoline lines were NOT as accurate. I have set 82138339de
