Category:2005 albums Category:The Soul Sickness albums This invention relates to a method for producing low-density polyethylene and ethylene-vinyl acetate copolymers. More particularly, this invention relates to a method for producing a low-density polyethylene and ethylene-vinyl acetate copolymer by the copolymerization of ethylene and vinyl acetate in the presence of at least two different types of liquid, soluble Ziegler-Natta catalysts under high pressure conditions. It has now been discovered that the quantity of additives can be reduced and the dispersibility can be improved in the polyethylene produced by the copolymerization of ethylene and vinyl acetate in the presence of liquid soluble Ziegler-Natta catalysts. The quantity of additives can be reduced substantially, and the dispersibility is improved to such an extent that the polymer prepared can be used as an alternative to polyethylene produced in the presence of a high temperature melt-
