Armstrong has three Grand Tour wins to her name, taking both the Vuelta and Tour of France in 2011, as well as the US women's cycling title in 2013, and is in the process of becoming a UCI WorldTeams and Giro d'Italia stage winner. ");` `if (search.left!= null) { System.out.println("found left." +search.left.data); }` `if (search.right!= null) { System.out.println("found right." +search.right.data); }` `if (search.data.equals("1")) { System.out.println("found leaf data = "+search.data); }` The output should be: 1 has two children and have either left or right child. found left.1 found right.2 found leaf data = 1 A: Since the `TreeNode` class doesn't include the data field
