A new, more immersive and quicker way to switch defensive tactics on the fly, use the new Switch (Tick) system for dynamic and instinctive defensive play, and multi-directional technical control animations across the pitch. A new 5v5, head-to-head Special Play system has been added, and new offensive and defensive strategies, as well as the ability to kick-off in most situations. Also include support for the new UEFA Champions League, Champions Cup, Europa League, UEFA Nations League and Club World Cup competitions with the inclusion of the official match ball. Alongside this, the following leagues have also been updated with more than 10,000 new leagues, allowing you to create truly unique team and player rosters for the game - from the Spanish Primera, English Premier League, French Ligue 1, Italian Serie A, Scottish Championship, Croatian First League, Belgian First Division A, to the Russian and Turkish Super Leagues. Expansive updates to goalkeepers and goalkeepers' crosses: New physics model that gives goalkeepers greater control, improved animations and reactions to crosses, and the ability to give them a small nudge towards the ball to control it in flight. Expansive updates to player and team performances: New player performances, as well as player fatigue and transfer updates, allowing you to easily manage your squad. New team performance updates, including improved shot power, shot accuracy and conversion rate. Improved depth and clarity in the controls: Added physicality to dribbling controls, resulting in a more realistic and accurate feel to ball control. Added to this, the ability to press the shooting button, the cancelling of passes and shooting, and interceptions all now feel more contextual to the situation. Improved defensive player positioning: Goalkeepers can now press the defence and defencemen can press the ball to initiate high pressing strategies. Improved ball physics: The ball is

now much more responsive to action, allowing players to more easily control the ball in tight spaces. The rebound angle and angle of break have been improved, and ball spin has been increased. In-game commentary: The commentary has also been updated, offering more granular information than ever before. Player and player movement comments, key passes, key passes received, advanced stats, substitutions, line ups
