How about the Staff Competition with the Santa Team here: Hey Everyone, Back from holiday break and it's time to get back into the swing of things! We have gotten some cool updates to the game that you can now download from our website: This is the update that is meant to improve game play for those of you that have been on for a while and for those that have joined us. This update basically adds a lot of new items, feats and subclasses for players to play with. Players that like to change things up now have a lot more ways to make their characters stand out. The new vault can contain up to 5 characters that can keep their gear. This should help with player retention, as players now have new options that can help them keep playing. And finally, staff may now be told to players that are using unstable staff. This will help facilitate server crashes as well as DDoS attacks. This is a huge update that will help everyone that has played the game since day one. We hope you enjoy it! Check out our other articles as well as some stuff in the New Features section. Game on! –Expocalypse Team Hey Players, More feedback and criticism on the forums. We are still working on our plans to address the issue and we are looking into what we can do to make the game easier for new players. Something that he did not know of in that moment. The Dovahkiin found himself, hopeless, alone. The rise of the Horde had begun. Hey players, We have a new gif available for those of you that want to see what your favorite player looks like. The
