## Reviews:

"I've been awaiting this game's release for a while now and through the tutorial, I am utterly amazed at the implementation of character customization. World maps are lovely and with the long-awaited sound effects, war cries and evil laughs, you know where the battle is and how to attack and defend."

"First of all, the maps and the world in the game are absolutely gorgeous. Not only that but the gameworld also has many hot spots that we can summon and keep our troops in play for awhile."

"The visual appearance of the game brings back good memories of Dragon Quest 2."
