Find The Style In Element In Javascript I am making a webapp for homework and I have an image button where if you click on the image I want a big orange button to appear.

I know how to make a button appear, I just don't know how to make the orange square appear and I don't know how to add the

javascript code to make that happen. I think

---

I am adding my javascript code in the wrong place because nothing I add to the document.style.display says it's in there. But I have no idea what to put in there. Here is the code: A: Try using the css: High-Precision Flux Monitoring System for H<sub>2</sub>S/CH<sub>4</sub> Combustion Processes Using a Novel 3D Gas Sensor Array. A novel gas sensor array composed of sensors that detect three types of gases (H<sub>2</sub>S, CH<sub>4</sub>, and O<sub>2</sub>) simultaneously is investigated. A gas mixture consisting of a single gas component at different concentrations (for example, H<sub>2</sub>S at high concentration) is generated by using a gas mixer to mix H<sub>2</sub>S with the carrier gas (N<sub>2</sub>) in 6d1f23a050
