There are three gantry proton therapy (PT) centres. All three are located in the northern half of the country, and have been in operation for

more than 10 years. At the current time there are three multi-disciplinary teams (MDT) able to conduct research trials. These are located at the three proton therapy centres, and conduct research for a wide range of indications. There are currently three research trials open. A new rural PTS has been established and is currently in the pre-clinical phase of development.

14-year-old boy dead after being hit by a car while crossing the road

A 14-year-old boy has died following an accident involving a car in Surrey. The boy, from Epsom, was crossing New Colne Road, in Churt, at approximately 7.45pm on Monday when he was hit by a silver car. He was taken to a local

hospital where he died from his injuries.
Insp Gregg Stone said: “I would like to
appeal to anyone who may have
witnessed this incident, or has any
information that would help us locate the
driver or the car that was involved, to
contact us. “ 6d1f23a050
