
WEBE Model Phoebe Part 3

a year later, the girl died from her condition. cora had been told that her sister had died, only to find out that her sister was simply in another state on vacation and her mother didn't want to tell her. she wasn't really sad about phoebe's death, but felt that she shouldn't have been punished for lying. her mother got in trouble for not telling her daughter about her sister's death, but cora's father had also been convicted of killing his wife and had confessed to his daughter that he did it. the father eventually died and the mother got out of prison. cora's father was eventually released as well and cora was left as the only person who knew her sister's death. a couple years later, the girl who the mother had died in the hospital and had the same name of her older sister, was also diagnosed with cancer. the girl told her mother that her name was phoebe and that she prayed to her dead sister every day for her health. she went to the same hospital and a nurse at the cancer ward of the hospital diagnosed her sister's sister with the same type of cancer as phoebe. the girl's mom went to the hospital where her sister had died, and told them that her older sister's name was phoebe and that she had prayed to her dead sister every day for her health. she said the nurse was all giddy about it. the girl's mother now said she was going to pray to her dead older sister too. the older sister/phoebe told her mother that she was already dead and that she had died of lymphoma and her mother should have told her daughter that she was dead when she was younger. the girl/phoebe told her mother that she would pray for her dead sister and for her health. the mother told her daughter that her dead sister would be proud of her and that her prayers would be answered. the girl/phoebe was now 16 and a sophomore in high school and when she asked her mom if she prayed to her dead sister too, the mother told her she wasn't a bad girl but to just pray for her health. the girl/phoebe thought this was really weird and was glad her mom didn't ask her about it when she was younger.

WEBE Model Phoebe Part 3

I was able to go in the backyard and make a few more pictures. Well, that's it for now.

Tomorrow, I will be leaving to attend a gathering of ROs, when I will be able to make pictures of the workshop. I will also be making a workshop section in the next issue of the WEBE magazine.

Hope you all enjoyed the pictures of Phoebe's

Model! Phoebe Halliwell
(Helen Mirren) is the
quintessential lesbian
with a heart of gold,
who is forced to balance
a deep-seeded anger of
her gender and
sexuality with a streak
of impervious, hard
outer skin. Phoebe was
introduced in the
famous original movie in
1964, and it would
certainly have been a
shocker if Phoebe was
not in the reference that
defined the lesbian

experience in America, one of the first beloved mainstream movies from the golden age of Hollywood. But it was the definitive portrayal of an independent woman who had to put up with motherhood, a job and marriage in the 50's, with a not-so-innocent eye. Under the California law, an applicant for licensure must take and pass a written examination that includes a test of five

(5) basic psychoanalytic concepts presented in a progressive format. A student must pass the examination in order to enroll as a graduate student in a graduate level course of study in the Department of Psychology. The Department of Psychology will determine the extent to which an applicant has demonstrated an understanding of and ability to apply the basic

psychoanalytic concepts
by applying the
psychoanalytic
principles and practice
to the selected
categories. Five
hundred sixty (560)
credits are required in
order for a student to
graduate. The passage
of these five basic
psychoanalytic concepts
is a requirement to earn
the degree of Doctor of
Psychology. 5ec8ef588b
